

(ISC)²

SECURE London

April 7, 2022 | BMA House | Tavistock Square | London WC1H 9JP

Don't miss this exciting opportunity to join your peers at the (ISC)² SECURE London cybersecurity summit and earn CPE credits. This one-day event will bring together information security professionals from London and surrounding areas to explore the most current issues impacting cybersecurity.

Featuring an opening keynote presentation by Chris Ensor, Deputy Director for Cyber Skills and Growth, National Cyber Security Centre and interactive breakout sessions focusing on:

- Ransomware Incidents: How to Prepare, How to Respond
- Never Trust, Always Verify: The Benefits and Challenges of Zero Trust Migrations
- Security Awareness: Planning and Delivering a Successful Program
- Which Leading Cloud Provider has the Most Effective Security Features – AWS, Azure or Google Cloud (GCP)

You will also have plenty of opportunities to network with peers and visit the Exhibit Hall throughout the day.
